Art Unit 1711

This Office action is in response to applicants' RCE request of 3-4-03.

Claims 25-27 and 29 are rejected under 35 U.S.C. § 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification as filed does not disclose the range of "c" in claims 25-27 or "ethylene ionomers" in claim 28, or nylon structural layers as recited in claim 29. These limitations are therefore new matter.

Applicants' arguments filed 3-4-03 have been fully considered but they are not deemed to be persuasive.

The Examiner has reviewed the passages pointed out in applicants' specification alleged by applicants to provide support for the instant invention. However the Examiner can find no support for applicants' range of "c" in claims 25-27, ethylene ionomers in claim 28 or nylon structural layers in claim 29.

The Examiner has reviewed the claims of Serial No. 08/591,330.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeffrey Mullis whose telephone number is (703) 308-2820. The examiner can normally be reached on Monday-Friday from 9:30 to 6:30.
